

What to do

*IMPORTANT Parent or Carer –
Please check that you are happy with any weblinks or use of the internet.*

1. Counting practice

- Count to 100 in unison together.
- Match the count with fingers, standing up one digit for every number spoken.
- Every time you reach a multiple of 10, i.e. 10, 20, 30, 40, etc. clap your hands and say, “Cuppa tea!”
- Continue like this all the way to 100 – cuppa tea!

2. Working together

- We call the multiples of ten the ‘cuppa-tea’ numbers because, from 10 onwards, they end ---ty. (twentyty, thirty... etc.)
- Complete the working activity on *Cuppa Tea*
 - You need good colouring pens or crayons.
 - Follow the instructions on below.

Try these Fun-Time Extras

- Count in tens with others on YouTube

- Draw a rocket and write the multiples of ten in a line up to the moon!

Cuppa Tea

Instructions

You need: Good colouring pens or crayons.

- The multiples of 10, numbers ending in a zero, are special.
- We need to recognise them and distinguish them from the teen numbers (thirteen, fourteen, fifteen... etc.). These numbers end ---*teen*.
- The multiples of 10 from 20 to 90 all end ---*ty*, so we call them the 'cuppa tea' numbers to stress the last syllable ----ty.

What to do

- Count along the grid. Get to the end of the first row and start on the second row.
- Every time you come to a 'cuppa tea' number, colour it.
- Also colour the cup of tea in the row at the bottom.
- Write the multiple of ten below the cup. The first one is done for you.
- Continue until you reach the end of the grid.
- Count along the cups, saying the name of each number clearly.

Scroll down for grid and cups.

Cuppa Tea Numbers

1	2	3	4	6	7	8	9	10	11	12
13	14	15	16	18	19	20	21	22	23	24
