

Curriculum COVID-19 Statement

The curriculum in 2019-2020 and 2020-2021 lost some of the usual enrichment due to disruption caused by the COVID-19 pandemic. Sadly the loss of important areas in e.g. history and design & technology (D&T), have meant that children have missed out. To reflect this, we have adapted our curriculum overview to ensure children have these experiences included.

The curriculum has not been narrowed at all. We will adapt our D&T teaching to include additional skills which should have been covered during this time. We are very mindful of the importance of the history and geography that may have been lost due to the pandemic, this is catered for in the altered curriculum cycle for next academic year. Over this time, where applicable, skills that were scheduled to be covered in the previous academic year will also be met, meaning that some topic areas may have additional skills and knowledge that would not normally feature.
