E-SAFETY POLICY

CHILD-FRIENDLY VERSION

Approval Date:	Summer 2022
Review Date:	Summer 2024

This child friendly e-safety policy has been developed with the aim to keep children safe on the internet at home and at school.

Why do we like the internet?

- It is interesting and fun.
- We can learn a lot from the internet.
- We use it for our school work.

What are the dangers of children going online?

- We could see or hear things that are not suitable for children.
- People on the internet can pretend that they are someone else.
- People could ask for personal information, which is dangerous.
- Not everybody on the internet is kind.

Why do we need an e-safety policy?

- To keep children safe whilst also having fun using the internet at home and at school.
- To make sure children know what to do if something on the internet makes them worried.

How does Chuchfields keep children safe when they use the internet at school?

- The grown-ups are always watching us when we use the internet at school.

- The grown-ups explain to us how to use the internet safely.
- Our school filters the search results so that it is ok for children to see.

If children have a problem when they are online what should they do?

- Keep calm and tell a grown up straight away.
- Stay on the page so a grown up can see what has made us feel worried/upset.
- Block and report anyone that is being unkind.

What should they not do?

- Do not keep worries to yourself.
- Do not be unkind back to anybody.
- Do not delete messages.
- Do not switch off the computer without telling a grown-up.

Our internet rules are:

- We ask permission before using the internet and we only use websites that a grown-up has told us to use.
- We never share our passwords with anyone else.
- We must never give anyone our personal information.
- We need to tell a grown up if we see or hear something that makes us upset or worried.
- We will never look for, save or send anything that could be unpleasant or nasty.
