

Dear Parent/Carer,

Many thanks to parents who have already signed up for our upcoming parents' evenings. It is not too late if you are still to book an appointment – please use the sign-up sheets available at each base. We look forward to seeing you there!

This term, our worship focus with pupils is the value of 'friendship'. We have been discussing what it means to be a good friend to others and exploring how to be proud of our achievements yet courteous and gracious in defeat, the cornerstone of a good sportsperson. Gem learner assemblies are an excellent opportunity for the school community to celebrate pupils' successes. We are grateful parents are often able to join these occasions and support our staff model to our children how to respectfully celebrate children's achievements across the week and apply the 'good friend' behaviours we have taught them beforehand. These assemblies are usually run by the senior teachers of each base before the end of school on Friday afternoon. All parents and families welcome, although it may be standing room only!

**\* Monday 25 September – School Closed to Pupils \***

A reminder the next Monday, 25<sup>th</sup> September, is one of our planned INSET day and so the school will be closed to all pupils. Although it is unusual for us to have a training day in the middle of term, this will be an opportunity for all Churchfields' Staff to work collectively with established Palladian Academy Trust schools for the first time. We are looking forward to working with our future colleagues on the theme of all our schools "Thriving Together" for the benefit of all our pupils.

Have an enjoyable weekend.

Kind regards,

Simon Fletcher.

## Increase in measles cases

[Measles](#) cases in England are on the rise. The NHS is [calling for all families to check if their children are up to date with their MMR vaccinations](#) by checking their child's red book or speaking to their GP practice. If any doses have been missed, they can make an appointment with their GP practice and catch up, it's never too late.

At National Online Safety, we believe in empowering parents, carers and trusted adults with the information to help our children understand about online safety with their children, should they need it. This guide is one of many apps which we believe trusted adults should be aware of. ## What Parents & Carers Need to Know about SNAPCHAT

**AGE RESTRICTION 13+**

Snapchat is an instant messaging app which allows users to send images, videos and texts to people in their friends list. One of Snapchat's unique features is that pictures and messages 'disappear' 24 hours after they've been viewed; however, this content isn't as temporary as many believe - with some users saving screenshots or using another device to take a photo of their screen. This year, Snapchat added 'My AI': a customisable chatbot with which people can chat and share secrets, as well as asking for advice and suggestions of places to visit.

### WHAT ARE THE RISKS?

#### CONNECTING WITH STRANGERS

Even if your child only connects with people they know, they may still get friend requests from strangers. The Quick Add option lets users befriend people the app recommends - but these 'friends' are merely a username, which could have anyone behind it. Accepting such requests reveals children's personal information through the Story, Snap Map and Spotlight features, potentially putting them at risk from predators.

#### EXCESSIVE USE

Snapchat works hard on user engagement, with features like streaks (messaging the same person every day to build up a high score). Spotlight Challenges tempt users into spending time producing content in search of cash prizes and online fame, while it's easy for children to pass hours watching Spotlight's endless scroll of videos.

#### INAPPROPRIATE CONTENT

Some videos and posts on Snapchat aren't suitable for children. The hashtags used to group content are determined by the poster, so even an innocent search term could still yield age-inappropriate results. The app's 'disappearing messages' feature also makes it easy for young people (even in particular to show explicit images or language - so setting boundaries to be a risk associated with Snapchat.

#### ARTIFICIAL INTELLIGENCE

My AI is Snapchat's new chatbot, which replies to questions in a human-like manner. However, the software is still in its infancy and has significant drawbacks, such as biased, incorrect or misleading responses. There have already been numerous reports of young users turning to AI for medical help and diagnosis, which could be inaccurate and therefore potentially dangerous.

#### ONLINE PRESSURES

Although many of Snapchat's filters are designed to entertain or amuse, the 'beauty' effects on photos can set unrealistic body-image expectations - creating feelings of inadequacy if a young person compares themselves unfavourably with other users. Snapchat also has 'streak' notifications (which still get displayed even if a device is in 'do not disturb' mode), increasing the pressure on users to log back in and interact.

#### VISIBLE LOCATION

Snap Map highlights a device's exact position on a virtual map, which is visible to other users. There are options to restrict who can see this information: all friends, only you (Ghost Mode) or selected friends. Snapchat also has real-time location sharing, which is intended as a safety system to ensure friends have reached home safely - but which could also be used to track a young person for more sinister reasons.

### Advice for Parents & Carers

#### TURN OFF QUICK ADD

The Quick Add feature helps people find each other on the app. This function works based on mutual friends or whether someone's number is in your child's contacts list. Explain to your child that this could potentially make their profile visible to strangers. We recommend that your child turns off Quick Add, which can be done in the settings (accessed via the cog icon).

#### CHOOSE GOOD CONNECTIONS

In 2021, Snapchat rolled out a new safety feature: users can now receive notifications reminding them of the importance of maintaining connections with people they actually know well, as opposed to strangers. The 'Friend Check Up' encourages users to delete connections with users that they rarely communicate with, to maintain their online safety and privacy.

#### DISCUSS AI

Although My AI's responses can often give the impression that it's a real person, it's essential that young people remember this certainly isn't the case. Encourage your child to think critically about My AI's replies to their questions: are they accurate and reliable? Remind them that My AI shouldn't replace chatting with their real friends, and that it's always better to talk to an actual person in relation to medical matters.

#### CHAT ABOUT CONTENT

It may feel like an ephemeral conversation (and one that young people can be reluctant to have) but it's important to talk openly and not personally about sexting. Remind your child that once something's online, the creator loses control over where it ends up - and will also see it. Likewise, it's vital that children understand that sexting challenges which become popular on the platform may have potentially harmful consequences.

#### KEEP ACCOUNTS PRIVATE

Profiles are private by default, but children may make them public to gain more followers. Snap Stories are visible to everyone your child adds, unless they change the settings. On Snap Maps, their location is visible unless Ghost Mode is enabled (again via settings). It's safest not to add people your child doesn't know in real life - especially if it's a question of My Places, which allows other Snapchat users to see where your child regularly visits and hangs in.

#### BE READY TO BLOCK AND REPORT

If a stranger does connect with your child on Snapchat and begins to make them feel uncomfortable through bullying, pressure to send explicit images or by sending sexual images to them, your child can select the three dots on their person's profile and report or block them. There are options to state why they're reporting that user (annoying or malicious messages, spam, or misquoting as someone else, for example).

#### Meet Our Expert

Dr Claire Butterfield is an online safety consultant, educator and researcher who has developed and implemented anti-bullying and cyber safety policies for schools. She has written various educational papers and carried out research for the Australian government concerning internet use and meeting behaviour of young people in the UK, USA and Australia.
